Att: Mr Dennis L Ziemann, Chief
Operating Reactor Branch No 2
US Nuclear Regulatory Commission
Washington, DC 20555

DOCKET 50-155, LICENSE DPR-6 -
BIG ROCK POINT PLANT - RDS BATTERY
TECH SPEC CHANGE REQUEST

Transmitted herewith are three (3) executed and thirty-seven (37) conformed copies of a Request for a Technical Specifications Change of License DPR-6, Docket 50-155, issued to Consumers Power Company on May 1, 1964 for the Big Rock Point Plant.

This proposed change, when approved, will allow the specific gravity of each Reactor Depressurization System (RDS) battery to drop to a minimum of 1.15 as opposed to the 1.20 limitation currently in effect. This change request is based on a study performed by Exide Power Systems Division at the request of Consumers Power Company. Other changes incorporated within this proposal are submitted to correct minor system descriptive inaccuracies.

David A Bixel
