Re: Docket 50-155 Regulatory Suppl File Cy.

Dr. P. A. Morris, Director
Division of Reactor Licensing
United States Atomic Energy Commission
Washington, D. C. 20545

Dear Dr. Morris:

Attention: Mr. D. J. Skovholt

Attached are twenty-two (22) copies of Figure 25 and an errata sheet for our request for change to the Technical Specifications of License DPR-6, Docket No. 50-155, issued to Consumers Power Company on May 1, 1964, for the Big Rock Point Nuclear Plant. This proposed change (No. 13) dated May 26, 1967 concerned the licensing of center melt fuel.

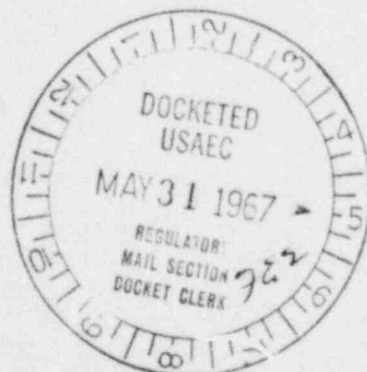

Figure 25 was inadvertently omitted from this submittal and should be inserted after the existing Figure 24. The attached errata sheet primarily concerns editorial corrections to the submittal.

We must apologize for the omission of this Figure 25 and trust it has not caused you any inconvenience.

Yours very truly,

Robert L. Haueter
Assistant Electric Production
Superintendent - Nuclear
