DOCKET NUMBER PR-30, 32, 70, 150  
PROPOSED RULE (45 FR 70874)  
SMELTED ALLOYS

001511

Re: The N.R.C. proposal to halt the Licensing requirement for sale of contaminated scrap metal as published in the Federal Register October 27, 1980. In the interests of public health and safety We strongly urge that this licensing requirement not be eliminated. It is imperative that all regulations governing the disposal of radioactive waste be maintained.

Name: Tylor + Swan Field

Address: N. Main Rd.  
Little Compton, R.I. 02837.
