Secretary of the Commission
U.S. Nuclear Regulatory Commission
Washington DC. 20555

TP 1710-1

Attention: Docketing and Service Branch

To Whom it May Concern:

I urge you to retain ~~the~~ the regulations prohibiting the possession, use, and transfer of low-enriched uranium as a contaminant in metals. All radiation is dangerous, and it is, to say the least, ridiculous + stupid to make products made from this radioactive scrap metal to be used in daily life.

Please respond to me on this matter.

Sincerely,

Susan Koike
