Dear Betty:

Enclosed please find an application for license to export. I was informed that the total poundage for Canada West, over a period of one or two years cannot be established. I do know that over this period there will be subsequent shipments of not more than 150 lbs. per shipment.

Please contact me as soon as possible with any information you may acquire. Also, if you have questions do not hesitate to call.

Sincerely,

Deborah A. Gomer
