JOHN S. KEMPER
VICE-PRESIDENT
ENGINEERING AND RESEARCH

Mr. Boyce H. Grier, Director, Region I
United States Nuclear Regulatory Commission
631 Park Avenue
King of Prussia, PA 19406

SUBJECT: NRC Region I Letter Dated November 14, 1980
RE: IE Bulletin 80-23
"Failures of Solenoid Valves Manufactured
by Valcor Engineering Corporation"
Limerick Generating Station Units 1 and 2
Docket Nos. 50-352, 50-353
File: GOVT 1-1 (IE Bulletin)

Dear Mr. Grier:

Philadelphia Electric Company has reviewed IE Bulletin 80-23,
"Failures of Solenoid Valves Manufactured by Valcor Engineering Corporation"
submitted with the subject letter received on November 18, 1980.

We have determined that there are no Valcor Engineering Corporation
Solenoid Valves of the type described in IE Bulletin 80-23 used or
planned for use in any safety-related function in balance-of-plant
systems at Limerick Generating Station Units 1 and 2. General Electric
Company has not completed their review of the NSSS systems. Therefore,
our response to the NSSS system applications will be delayed. We expect
to transmit this response by 2/28/81. An expenditure of 40 MH has been
expended to date in reviewing and preparing this report.

Sincerely,

John S. Kemper
