ATTN: Mr. R. B. DeWitt  
Manager of Nuclear  
Plant Operations  
212 West Michigan Avenue  
Jackson, MI 49201

Gentlemen:

This refers to the inspection conducted by Mr. J. L. Belanger of this office on March 9-11, 1977, of activities at Big Rock Point Nuclear Power Plant authorized by NRC Operating License No. DPR-6 and to the discussion of our findings with Messrs. Abel, DaFoe and Cappell at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel. The inspector also examined corrective action you have taken with respect to the matter identified during our Physical Protection Inspection of August 18-20, 1976. We have no further questions on this matter.

During this inspection, certain of your activities appeared to be in noncompliance with NRC requirements, as described in the Summary of Findings section of the enclosed inspection report. The inspection showed that action had been taken to correct the identified noncompliance and to prevent recurrence. Consequently, no reply to this noncompliance is required and we have no further questions regarding this matter at this time.

Areas examined during this inspection concern a subject matter which is exempt from disclosure according to Section 2.790(d) of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations. Consequently, our report of this inspection will not be placed in the Public Document Room.
