DOCKET NUMBER FR-30, 32, 70, 150  
PROPOSED RULE (48 FR 70874)  
SMELTED ALLOYS

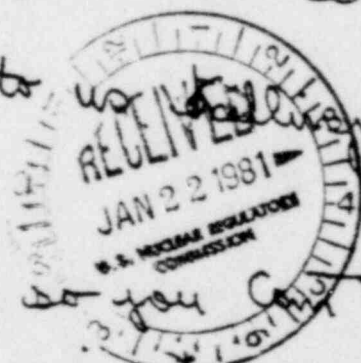

To Mr. Secretary:

001882

I Have Been informed that the Nuclear Regulatory Commission wants to sell radioactive scrap metal for consumer products... Cars, Coins, furniture, Bed frames, utensils, playground equipment.

you must know that we cannot decontaminate any radioactive material, you will be exposing more radioactive material to us thousands of people and children.

I am writing to you so you can take a closer look to what you are doing to mankind. I know you are aware of what is ~~going~~ happening. you just don't really care. As far as you get your share of profits,

yours truly
