PROPOSED RULE (43 FR 70874)
SMELTED ALLOYS

Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Sirs:

We have heard that there is some discussion about the possible use of low-level radioactive metals in the manufacture of consumer products, including automobiles.

We would certainly like some more information regarding this subject since we are very concerned with the proliferation of exposure to radioactivity in our environment.

Sincerely,

Helen Ganey
