John Ahearne, Commissioner
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

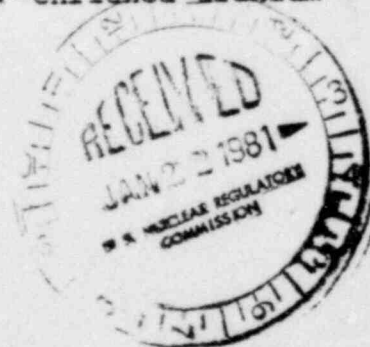

Dear Mr. Ahearne:

Please prohibit the nuclear industry from selling scrap metal contaminated with low-enriched uranium on the open market. There is grave danger to the public health from nuclear power; let's not make it worse by allowing the nuclear industry to sell this scrap metal to manufacturers.

Has the public health been considered? Is it not the job of the NRC to protect the public from the dangers posed by nuclear power? You are a regulatory body, not a promoting body. Please protect the public by prohibiting the sale of this low-enriched uranium on the open market.

Sincerely yours,

NANCY VIOLETTE
