

DOCKET NUMBER PR-70, 80, 70, 150  
PROPOSED RULE (48 FR 70274)  
SHIELDED ALLOYS

001995

December 10, 1980

USNRC  
Office of Public Affairs  
Washington, D. C. 20555  
Scrap Metal Regulation  
Attention: Docketing and Service Branch

Dear USNRC:

I have recently read that your organization is proposing legislation to recycle scrap metal.

As a concerned citizen of the United States, I protest against hazardous waste, specifically scrap metal, and believe such items should be disposed of in a more permanent and less dangerous method than the proposed recycling project.

Companies economic interest in such endeavors not only cost the American consumer, but greatly endanger the environment we live in.

Sincerely,

A handwritten signature in cursive that reads "Shelby Dooley".

Shelby Dooley
