Subject: Presentation of Topical Report ScP-01

Dear Mr. Berggren,

This letter is to confirm our intention to make a presentation to the NRC on February 26 at 2 pm in Room P110 of the Phillips Building.

As Bob Smith has discussed with you, we plan to present three topics:

1. A summary of the γ RADCAL Topical Report, ScP-01, submitted on January 9, 1981 (Rev. 3) - 45 minutes
2. A presentation of the latest results of the prototype γ RADCAL program currently underway in several PWR's of Electricite de France - 45 minutes
3. A brief discussion of the latest developments in the use of γ RADCALs as water level indicators as well as power measuring devices.

If you would like any changes to these plans, please contact Jim Waring or myself.

Sincerely yours,

Peter A. Morris
Executive Vice President
