

HELIUM BREEDER ASSOCIATES

February 3, 1981

Mr. Hugh L. Thompson  
Acting Director  
Planning & Program Analysis Staff  
Office of Nuclear Reactor Regulation  
Washington, D.C. 20555

Dear Mr. Thompson:

Because of the current lack of federal support for the development of the Gas Cooled Fast Reactor, we do not anticipate submitting requests or applications for NRC review between now and the end of 1983.

Thank you for giving us the opportunity to respond. My best to you personally.

Sincerely,

J. J. Scoville  
V.P. & General Manager
