

DOCKET NUMBER ER-30, 32, 70, 150
PROPOSED RULE (48 FR 70074)
SMELTED ALLOYS

Dec. 16, 1980
Rodeo, Calif.

Secretary of Nuclear Regulatory Commission
Washington D.C.

002848

Sir,

I just recieved a hand scrawled note informing me that the NRC is considering allowing industry to "recycle" metals made radioactive in their use in nuclear energy processes. Please consider the difficulty in regulating such a "decontamination" process. Please take strong measures to prohibit this type of metal from finding its way into our daily lives. The Commission is our guarantee of protection from radioactive substances. Please do not err in this responsibility.
