Docket No. 70-1308  
(Spent Fuel Pool)

February 19, 1981

ORDER RULING MOTION TO AMEND

On December 8, 1980, this Board issued an order granting a stay of proceedings until the parties had an opportunity to review new Part 72 of 10 CFR to make additional filings, to request amended or additional contentions and to make any further discovery requests.

The Staff now requests that the order be amended, asserting that additional discovery requests cannot be made until this Board has ruled upon any new or amended contentions which the parties may request. Consequently, the Staff requests that motions for additional discovery be deferred until 15 days after this Board has ruled upon any new or amended contentions. The Applicant objects to this delay.

Upon consideration the Board finds that the requested delay is not warranted but that the parties should know precisely what contentions will be subject to further discovery.
