Mr Alan S Rosenthal, Chairman
Atomic Safety & Licensing Board
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Dear Mr. Rosenthal:

I support the licensing of the
McGuire Nuclear Station. The ASLB
should not delay Piedmont Carolina's
energy future. I have studied the
issue of hydrogen generation and
ice condenser containment. I have
confidence in the McGuire Plant.
I urge the ASLB to
grant McGuire's license.

Sincerely,
Mary Carmichael
