Dear Sir:

Enclosed is a copy of a letter I have recently received from one of my constituents regarding his concern over a proposed recommendation by the NRC concerning the disposal of low level radioactive waste. I have also received other complaints and questions from other residents of my district.

It would be greatly appreciated if you would prepare an appropriate response that addresses my constituents concerns about this matter, and provide me with any other information on the subject that may be useful.

Thank you for your prompt attention to this request.

With best regards, I am

Sincerely,

DON RITTER  
Member of Congress
