

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

January 13, 1981

The Honorable Paul N. McCloskey, Jr.
United States House of Representatives
Washington, D. C. 20515

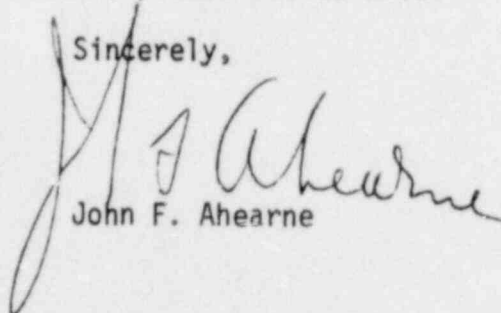

Dear Congressman McCloskey:

In my letter of October 1, 1980, forwarding information about sea disposal of radioactive waste, I indicated that we would keep you advised if further information developed. Enclosed is a letter from Mr. Richard E. Cunningham of our staff to Mr. George E. Earle, IV, which summarizes information about a possible sea disposal of radioactive material that took place in 1947. The Environmental Protection Agency has this information for appropriate follow-up action.

A search of our records to date has not uncovered any information pertaining to Mr. Earle's flights nor any other classified armed service flights for the purpose of disposing radioactive materials at sea.

If you have questions about this matter, please let us know.

Sincerely,

John F. Ahearne

Enclosure:
Ltr to Mr. Earle from R.E.
Cunningham dated 1/5/80
