Dear Mr. Council:

This is in response to your letter of November 21, 1980 concerning the analysis of and modifications to supports for safety related electrical equipment at the Haddam Neck Plant. You stated that you have made considerable progress on this subject and you estimate that at least 90% of the required modifications will be completed by our original deadline of December 31, 1980. We understand that you will provide the documentation we requested in our letter of July 28, 1980, for all equipment except cable trays and supports for internal components.
