Mr. John F. Ahearn
Chairman Commissioner
U.S. Nuclear Regulatory Commission
1717 H Street, N.W.
Washington, D.C. 20555

Dear Mr. Ahearn:

With respect to Docket 50-289SP, TMI-Unit 1, Middletown, PA, we would like to urge that Metropolitan Edison Company be allowed to restart Unit 1 of Three Mile Island. It's a shame not to use it, as it was not involved in or damaged by the TMI-2 accident. The decision made in this case will set precedents for the rest of the country.

Thank you for your serious consideration.

Sincerely,

Carol Finn
