LICENSING BOARD PANEL

February 24

Dear Mr. Smith,

I am against the reopening of TMI-I and very concerned about the cleanup of TMI-II... There are many reasons why I oppose the reopening of TMI-I and would like to be placed on the agenda to speak on March 5, 1981..

I also have some alternatives that would help us through this energy crisis and prepare outward positive energy programs for the next century.

Please inform me about my time slot for March 5, 1981.

Respectfully,

8103180683
