International Safeguards,
U.S. Nuclear Regulatory Commission
7735 Old Georgetown Road
Bethesda, Maryland

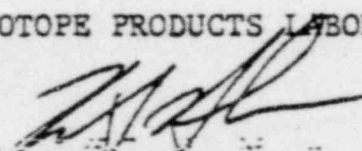

Dear Sirs:

On February 18, our company shipped an order of Pu-238, Pu-239, Pu-236 and Pu-242 (1 ugm each) to Weber Prazision of West Germany. At the time, we believed that this shipment was covered under export license # XSNM 01523. The license however, had expired, as well as not including Pu-242. Unfortunately the package is now loaded on a ship that left port the morning of the 20th. Would it be possible to extend and/or amend license #01523? If not, could we have expeditious processing of our enclosed new application?

Please accept our apologies for the oversight, we will endeavor to not have it happen in the future.

Sincerely Yours,

ISOTOPE PRODUCTS LABORATORIES
