Harold Denton
Director, Office of Nuclear Reactor Regulation
Nuclear Regulatory Commission
1717 N. Street, N.W.
Washington, D.C. 20555

Dear Mr. Denton:

I am a student attending the University of Akron. I am in a class project involving Nuclear Power Plants. My area of concern is the Federal regulations governing existing power plants, and Federal regulations pertaining to planned power plants. I need to know all the regulations one must abide by before and after a nuclear power plant is built. My attempts at finding this information through public libraries has been fruitless. I must have all Federal regulations, restrictions and codes before March 31st, 1981.

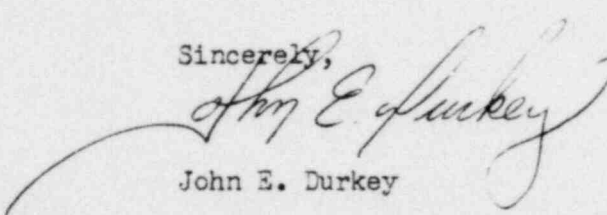

I would appreciate any help you or your office could give me in this matter. I would be grateful if you could have this or any other information pertaining to my area of concern by my March 31st deadline.

Please send any information to my address above.

Any help you can give me will be appreciated.

Thank you,

Sincerely,

John E. Durkey
