Mr. James B. Devine, Assistant Director
Export/Import and International Safeguards
Office of International Programs
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: Request for Export License for Replacement Parts and Components
for Romania.

Dear Mr. Devine:

General Atomic Company (GAC) makes application, pursuant to 10 CFR 110, for
license to export parts and components to Romania.

GAC is engaged in the manufacture and sale of nuclear reactors, nuclear in-
strumentation systems, components therefor, and cooperative research in the
development and testing of the components and fuels for research reactors.
In the normal servicing of our research reactors we are required to provide
replacement equipment and materials. In this case, General Atomic will be
supplying replacement parts and components for the TRIGA reactors at The In-
stitute of Nuclear Technologies in Pietesti, Romania. These reactors were
exported under License No. XR-91.

We request an expiration date two years from date of issue which will en-
able us to provide replacements as required under warranty.

Should you have any questions, please direct them to the undersigned at
(714) 455-2823.

Very truly yours,

William R. Mowry
Licensing Administrator
Nuclear Materials Control Division
