Skokie, IL 60076

Dear Ms. Beederman:

Thank you for your letter expressing your views on the proposed regulation change which would change the limits imposed on certain radioactive materials in scrap metals.

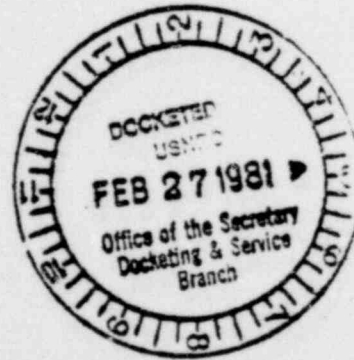

Although the comment period has ended, I am forwarding your letter to the NRC in Washington for possible consideration with other comments received. For your information, I am also enclosing a copy of the Federal Register notice describing the proposed rule.

Sincerely yours,

Jan Strasma
Public Affairs Officer
