Re: License #35-17087-01 *Dkn - 30-12175*

Dear Mr. Stello,

In response to your memorandum dated January 22, 1981, and in compliance with amendments to 20.407, 10 CFR, Part 20, concerning overdue personnel monitoring reports, I hereby submit radiation reports for calendar years 1979 and 1980 for Jo Whitlock, Registered Nuclear Medicine Technologist.

We are able to confirm 1980 report with copy on file in our department, but unable to confirm 1979, therefore, we are submitting both calendar years so they may be retained together.

We deeply regret this oversight and appreciate your understanding in this matter.

Sincerely yours,

Gene Watters, R.T.  
Manager of Radiology Services
