DER  
RHEINISCH-WESTFALISCHEN TECHNISCHEN HOCHSCHULE AACHEN

John Hendrie  
Commissioner  
US Nuclear Regulatory Commission  
Washington D.C. 200555

February 12, 1981

Re.: US-German study about "Criteria for the common acceptance  
of nuclear energy"

Dear Mr. Hendrie,  
at the meeting with

- Massachusetts Institute of Technology - MIT -
- Oak Ridge Associated Universities
- RWTH Aachen (University of Technology Aachen)

in December 1980, there was an agreement on a meeting on  
March 30 and 31, 1981 at our university  
for which I would appreciate your participation.

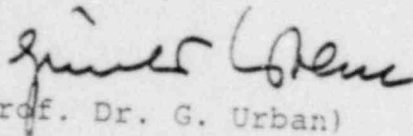

Agenda of the meeting is to fix the definitive programme of  
the study. Our first proposal has already been sent to  
Dr. Weinberg, as agreed upon in December 1980. He will review  
it and send it to you in time.

From the German side we have invited 25 persons, who are  
of interest from the German point of view for such a basic  
programme discussion.

Dr. Weinberg, Oak Ridge and Prof. Rasmussen, MIT, have just  
announced their participation at the March-meeting.

Time-schedule and other organisational details concerning our  
March-meeting will be sent to you within a fortnight.

Sincerely yours

-2222 02222 (Prof. Dr. G. Urban)
