NRC Docket Number 50-341

Subject: Supplemental Response to Item 110.17

Dear Mr. Kintner:

Detroit Edison will provide a supplemental response to item 110.17 in the next FSAR amendment as you requested. The supplemental response will be as follows:

"If a crack is detected in a jet pump hold-down beam, that beam will be replaced by one of a suitable material and design before returning to power operation."

Very truly yours,

W. F. Colbert
Project Engineer
