R. J. GARY
EXECUTIVE VICE PRESIDENT
AND GENERAL MANAGER

November 10, 1980

Mr. Norman Ketzlach
Uranium Fuel Licensing Branch
Division of Fuel Cycle and
Material Safety
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Ketzlach:

Your letter dated October 10, 1980 requested that a realistic date for receiving fuel be provided as an aid in establishing a review schedule for the Texas Utilities Generating Company license application to permit receipt, possession, storage, inspection and transportation of special nuclear material. Accordingly, the earliest date at which we intend to receive fuel is September, 1981. To be consistent with our needs, the license application review should be completed and the license issued by September 1, 1981.

You will be notified prior to September 1, 1981 should the above fuel receipt date change.

Sincerely,

R. J. Gary
