for Operations

FROM: Samuel J. Chilk, Secretary 

SUBJECT: STAFF REQUIREMENTS - DISCUSSION OF RESUMPTION  
OF OPERATIONS AT INDIAN POINT 2, 10:50 A.M.,  
TUESDAY, APRIL 7, 1981, COMMISSIONERS'  
CONFERENCE ROOM, DC OFFICE  
(OPEN TO PUBLIC ATTENDANCE)

The Commission was briefed by the staff on the resumption of operations at the Indian Point 2 Nuclear Station.

Commissioner Ahearne asked that the NRC Office of Research be consulted to see if they have any concerns with possible damage to the Indian Point reactor vessel in light of their experience.

The Commission, by a vote of 3-1, agreed that its decision of July 11\*, 1980, to permit continued operation of Indian Point 2 and 3 remains valid. Commissioner Gilinsky indicated that he would prefer to wait until the staff meets with FEMA, New York State, and County authorities on the emergency plan before acting.

The Commission also indicated that they would like a status report from the staff after the meeting with FEMA, the State, and County authorities.
