United States Nuclear Regulatory Commission
Washington, DC 20555

Attention: Mr. Walter P. Haass, Chief
Quality Assurance Branch
Division of Project Management

Gentlemen:

Subject: Organization Change

In accordance with the NRC Acceptance of Gilbert/Commonwealth Topical Report on Quality Assurance, (GAI/TR-106, Revision 2) we wish to advise you of recent changes within the Quality Assurance Organization.

The General Manager Quality Assurance Division is now the Vice President and General Manager.

The Quality Engineering Department as depicted in GAI-TR-106, Revision 2, Figure 1.6 has been changed to remove Technical & Speciality Services section, replacing that section with two (2) sections titled (1) Operations Quality Assurance Services and (2) Design & Construction Quality Assurance Services.

Please note that these changes do not affect our Quality Assurance Program, but were made to better serve our clients.

Enclosed is the organizational chart which illustrates the changes. Should you have any questions, please call.

Very truly yours,

N. R. Barker
Vice President & General Manager
Quality Assurance Division
