Gray File

Mr. George T. Berry
President and Chief Operating Officer
Power Authority of the State of New
York
10 Columbus Circle
New York, New York 10019

Dear Mr. Berry:

By letter dated August 8, 1979 you were requested to review the electric power systems at the James A. FitzPatrick Nuclear Power Plant. Your response was forwarded by letters dated September 7, 1979 and July 1, 1980.

We have reviewed your responses and by the enclosed Safety Evaluation concur in the conclusions to: (1) complete the proposed modification to transformer taps on the 600V emergency load center transformer, and (2) verify by testing that the offsite power system and onsite distribution system will be capable of providing acceptable voltages.

You are requested to provide the results of verification tests within 30 days after the conclusion of your next refueling outage. If we can be of further assistance, please advise.

Sincerely,

Original signed by

Thomas A. Ippolito, Chief
Operating Reactors Branch #2
Division of Licensing
