Dear Mrs. Johns:

This will confirm your telephone conversation with Sandra Schlosser of this office on March 11, 1981, at which time Ms. Schlosser told you that we were officially closing the local public document room (LPDR) for the proposed Ft. Calhoun Unit 2 Nuclear Power Plant. As you know, Omaha Public Power District has cancelled plans to build the plant.

As Ms. Schlosser discussed with you, we do not need to have the F. Calhoun Unit 2 material returned to us as the official file copy is being retained by the Office of Administration here in our Bethesda, Maryland, offices.

Please feel free to keep any or all of the LPDR document collection. However, you may decide not to retain any LPDR material and, if that is the case, the documents may be disposed of.

I would like to take this opportunity to thank you and the staff of the W. Dale Clark Library for your help over the years with the local public document room collection; you have played an important part in our program.

Thanks again for your interest and support. Please give us a call on our toll-free number (800-638-8081) if we can be of assistance to you or your patrons in the future.

Sincerely,

Jona L. Souder, Chief
Local Public Document Room Branch
Division of Rules and Records
Office of Administration

cc: Mr. David Sheffey
