

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555
March 31, 1981

Docket No. 50-549

Ms. Pat Hollander
Catskill Public Library
1 Franklin Street
Catskill, NY 12414

Dear Ms. Hollander:

This will confirm your telephone conversation with Sandra Schlosser of this office on March 11, 1981, at which time Ms. Schlosser told you that we were officially closing the local public document room (LPDR) for the proposed Greene County Nuclear Power Plant. As you know, Power Authority of the State of New York has cancelled plans to build the plant.

As Ms. Schlosser discussed with you, we do not need to have the Greene County material returned to us as the official file copy is being retained by the Office of Administration here in our Bethesda, Maryland, offices.

Please feel free to keep any or all of the LPDR document collection. However, you may decide not to retain any LPDR material and, if that is the case, the documents may be disposed of.

I would like to take this opportunity to thank you and the staff of the Catskill Public Library for your help over the years with the local public document room collection; you have played an important part in our program.

Thanks again for your interest and support. Please give us a call on our toll-free number (800-638-8081) if we can be of assistance to you or your patrons in the future.

Sincerely,

Sandra J. Schlosser
for Jona L. Souder, Chief
Local Public Document Room Branch
Division of Rules and Records
Office of Administration
