Docket No. 50-201

APR 10 1981

Nuclear Fuel Services, Incorporated
ATTN: Mr. R. W. Deuster
President
Suite 600
6000 Executive Boulevard
Rockville, Maryland 20352

Gentlemen:

Subject: Inspection 50-201/81-01

This refers to your letter dated March 27, 1981, in response to our letter dated March 4, 1981.

Thank you for informing us of the corrective and preventive actions documented in your letter. These actions will be examined during a future inspection of your licensed program.

It is our understanding, based on the telephone discussion between Mr. J. Roth of this office and Mr. C. Alday of your staff on April 1, 1981, that since you do not expect to originate any additional shipments of radioactive material, you do not intend to revise the transportation section of the site Health and Safety Procedures Manual. Instead, if necessary, the engineer-in-charge of transportation and Manager of Health and Safety will review each shipment of radioactive material on a case-by-case basis as specified in your letter.

Your cooperation with us is appreciated.

Sincerely,

Richard R. Keimig, Chief
Projects Branch No. 2
Division of Resident and
Project Inspection
