Gentlemen:

I am a senior at James Kenan High School in Warsaw, N.C. My English class is doing a research paper and I have chosen to do mine on "Three Mile Island and Its Effect on the Town's Population."

My teacher suggested that I write to you to see if you could send me any information about the accident at Three Mile Island and what its effects were on the population of that town. It will be greatly appreciated.

Sincerely yours,

Pam Ezzell
