UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

APR 22 1981

MEMORANDUM FOR: The Files
FROM: R. Neal Moore
Office of International Programs
SUBJECT: SOURCE MATERIAL IMPORT LICENSE FOR NUCLEAR TRANSPORT & STORAGE, INC.
IU81004

On February 27, 1981, Nuclear Transport & Storage, Incorporated requested an extension of its import license SUI-1042 to March 31, 1986.

License No. SUI-1042 was issued in May, 1970 for the import of unlimited quantities of uranium source material and the license has been extended through June 30, 1981. For administrative purposes only, a new license, number IU81004, is being issued in place of the requested extension. The findings applicable to the previous license also apply to the new license.

The staff recommends the issuance of license IU81004 to supercede existing license SUI-1042.

R. Neal Moore
