Mr. D. L. Aswell  
Vice President - Power Production  
Louisiana Power & Light  
142 Delaronde Street  
New Orleans, Louisiana 70174

Dear Mr. Aswell:

This is to confirm that three individuals, under contract to the NRC, from the Los Alamos National Scientific Laboratory will arrive at the Waterford Steam Electric Station, Unit No. 3, on April 13, 1981, to perform an engineering analysis for the purpose of identifying vital equipment at the site. This analysis will be accomplished during the period of April 13-17, 1981, and will require that the NRC contractor have access to both plant information and areas. Additionally, the assistance of one person highly knowledgeable of site layout and construction will be required for the entire period. The attachment provides the names and identifying information of the NRC contractor. Information you consider to be proprietary which will be required by these contractor personnel during the visit will be afforded protection from disclosure in accordance with standard NRC procedure.

Sincerely,

151

Robert L. Tedesco, Assistant Director  
for Licensing  
Division of Licensing
