ATTN: Mr. William E. Morgan, Chief
Radiation Health Protection Organization
Mail Stop 2T-04
P. O. Box 3707
Seattle, Washington 98124

Mr. Morgan:

This is in response to your letter dated February 6, 1981 and your conversation with Dale Kers of my staff regarding the physical protection requirements for special nuclear material of low strategic significance possessed by The Boeing Company.

As discussed, as long as the total inventory of special nuclear material of low strategic significance does not exceed 15 grams at any one site no physical protection or security plans are required.

Should you have any questions, please contact Dale Kers at (301) 427-4010.
