Fukushima Reload
Fukushima I, Unit 1
Japan

Dear Mr. Griffin:

Concerning import of the special nuclear material for the facility noted below, this will confirm that the Government of Japan appointed Tokyo Electric Power Co., Inc. (TEPCO) as an authorized person under the terms and conditions pursuant to Article VI of the Agreement for Cooperation between the Government of the United States of America and Government of Japan concerning Civil Uses of Atomic Energy which entered into force on July 10, 1968, amended by the Protocol on December 21, 1973.

Fuel for the Fukushima I, Unit No. 1 reactor of TEPCO: 689 kgs of U-235 (2.92 % maximum enrichment) contained in 26,237 kgs of uranium

Further, it is confirmed that the transfer of the special nuclear material identified above will take place under all the terms and conditions of the Agreement for Cooperation between our Governments, and that the appointee(s) named above have been authorized to receive and possess the material by both Governments.

Also, the Government of Japan confirms that the safeguards and guarantees of the Agreement for Cooperation will always apply to this special nuclear material, except for that material subsequently retransferred with the written approval of the United States.

Sincerely yours,

M. Miyabayashi
Masayasu Miyabayashi
Nuclear Attache

Ref: This is in reference to the case number of XSNM-1788 stated in your letter dated March 2, 1981.

The intermediate consignee, Japan Nuclear Fuel Co., Ltd. is also authorized to receive and possess the material.

Maximum enrichment above include allowance 0.05 % and contract-based maximum enrichment is 2.87 %.
