Dear Mr. Schwencer:

The purpose of this letter is to provide the supplemental information requested to resolve open items in Section 1.9 of the LaSalle County Safety Evaluation Report, NUREG-0519. The materials provided in the enclosure to this letter address the following items:

- Open Item 6 - Compliance with Appendix G
- Open Item 7 - Criterion 51 of the General Design Criteria
- Open Item 10 - Quality Assurance
- Open Item 11.a - Pilot Monitoring of Emergency Procedures
- Open Item 11.c - Containment Isolation Dependability
- Open Item 11.d - Instrumentation for Detection of  
Inadequate Core Cooling
- Open Item 11.e - Modification of ADS Logic
- Open Item 11.f - Evaluation of Anticipated Transients  
with Single Failure

after filing)

It is our understanding, based on conversations with Mr. A. Bournia of your staff, that Open Items 1 and 2 have been closed and that Open Items 11.g and 11.h concerning emergency preparedness

8105060332

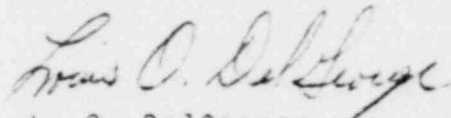

E

are expected to be closed based upon materials provided by the applicant in References 1, 2, 3, and 4 and discussions held between April 20 and May 1, 1981 during the LaSalle County Emergency Preparedness Appraisal.

The schedule for completion necessary to resolve Open Items 3 and 4 was provided in Reference 1 and has not changed. Materials necessary to resolve Open Item 5 will be transmitted by General Electric during the week of May 4, 1981 and will subsequently be formally documented on the LaSalle County dockets. In addition, the information requested to resolve Open Item 8 was provided in Reference 1, and the information requested to resolve Open Item 11.b was provided in Reference 5.

If you have any questions on the enclosed materials, please direct them to this office.

Very truly yours,

L. O. DelGeorge  
Nuclear Licensing Administrator
