Secretary of the Commission
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Attention: Docketing and Service Branch

Dear Sir:

We have received NRC Proposed Rule 10CFR Part 50 dated March 18, 1981. After review of this document, we believe that the manufacturing license for the floating nuclear plant should be continued along with the near term construction permits.

It is important to the utility industry that a standardized plant option be available for review.

We appreciate the opportunity to comment on this proposed rule.

Sincerely,

H.L. Culbreath
President
