Dear Mr. Mattimoe:

SUBJECT: IAEA INSPECTION OF RANCHO SECO

This letter confirms our earlier telephone notification of an IAEA/NRC visit to Rancho Seco on May 26 and 27, 1981. The IAEA representatives would like to meet with a SMUD vice-president level officer to describe the IAEA activities at Rancho Seco. A proposed agenda for the visit is given below.

- May 26 8:30 am Meet with SMUD corporate officer (and staff, as desired) at SMUD headquarters
- 10:30 am Depart for Rancho Seco / Lunch
- 12:30 pm Ad Hoc IAEA inspection of the plant
- May 27 9:30 am Rancho Seco Site:
  - a) Discuss the Design Information Questionnaire
  - b) Discuss the Facility Attachment
  - c) Review and verify the material inventory reports
  - d) Discuss the installation of surveillance equipment (cameras and seals) at Rancho Seco

Under 10 CFR 75.13 access to Rancho Seco is requested for the following:

<u>Name</u>	<u>Affiliation</u>	<u>Citizenship</u>

We will need access to all areas of the plant that contain nuclear material identified in your initial inventory report (and any supplements). Any other locations containing nuclear material, subject to the Safeguards Agreement between the USA and IAEA, should be accessible also. We will not require access to the reactor vessel during this inspection, but we would like to enter containment if the plant is shutdown.

You will have the opportunity to discuss the draft Facility Attachment developed for Rancho Seco. As information contained in the Facility Attachment will form the basis for modifications to your operating license, we request appropriate SMUD personnel attend the May 27 meeting.

If you have any questions, contact your NRC Project Manager.

Sincerely,

A handwritten signature in cursive script that reads "John F. Stolz". The signature is written in dark ink and is positioned above the typed name and title.

John F. Stolz, Chief  
Operating Reactors Branch #4
