D. G. Wiedeman, Acting Chief
Materials Radiation Protection Section I
U.S. Nuclear Regulatory Commission
Region III
799 Roosevelt Road
Glen Ellyn, Illinois 60137

Dear Mr. Wiedeman:

This letter is in response to your letter of April 16, 1981 in reference to the NRC License No. 12-15918-01 for Mason-Barron Laboratories, inc. The following action has been taken to correct the violations cited during a routine safety inspection by Mr. J.R. Mullauer on April 2, 1981.

1. Rick Hindery, in charge of building and maintenance, has been informed of violation. He is in process of having door changed so it can be locked on both outside and in and will see that this is carried out.
2. Birthdates have been added to forms.
3. Area being monitored daily by 1st shift.
4. Transport index will be filled out on future shipments as instructed by J.R. Mullauer. The description for shipment will include transport index on yellow II labels on outside of drum.

Please find attached a copy of the letter to Dr. John Cooper with notification of personnel changes.

Sincerely,

Joy Gales
