DATED 20 MARCH 1981
NRC LICENSE NO. 20-15102-01

Gentlemen:

Pursuant to your letter, dated 20 March 1981 with an attached Appendix A
"Notice of Violation" we reply as follows:

ITEM A P.X. Engineering Co., Inc. has delivered the Cobalt-60 source
contained in the Model 680 Projector to Technical Operations,
Inc., Burlington, Massachusetts for leak testing, and the testing
has been completed. An internal practice has been established
to insure that sealed sources are sent to Technical Operations,
Inc. at intervals not exceeding six months.
Full compliance has been achieved as of March 31, 1981.

ITEM B Inspection of radiographic operations were routinely conducted
at least once a week during the period between August 20, 1980
and February 18, 1981, although not documented. An inspection
was performed of radiographic operation on February 27, 1981.
The operations were observed to be satisfactory and so documented.

An internal practice has been established to insure that internal
inspections (audits) of radiographic operations be performed at
least once each month. Full compliance has been achieved as of
March 31, 1981.
