Gentlemen:

Subject: Inspection 81-01

This refers to the routine safety inspection conducted by Mr. Stearns of this office on February 4, 1981 of activities authorized by NRC License No. 29-14859-01 and to the discussions of our findings held by Mr. Stearns with Mr. W. Haley at the conclusion of the inspection, and to a subsequent telephone discussion between Mr. Stearns and yourself on February 17, 1981.

The inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, measurements made by the inspector, and observations by the inspector.

Our inspector also verified the steps you have taken to correct the items of noncompliance brought to your attention in the enclosure to our letter dated February 22, 1979. We have no further questions regarding your action at this time.
