DOCKET NUMBER  
PROPOSED RULE PR. Misc. Notices  
(NUREG/CR-1750)  
(46 FR 12917)

Secretary of the Commission  
Attn. Docketing and Service Branch  
United States Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Sir:

At our March meeting New England Training Association members reviewed NUREG/CR-1750 "Analysis, Conclusions, and Recommendations Concerning Operator Licensing". And while there are differences of opinion on some specific recommendations, consensus is that the Nuclear Regulatory Commission adopt these recommendations.

We believe this report is based on sound analytical data, is unbiased, is nonpolitically motivated, and is not influenced by emotionalism.

We encourage the Nuclear Regulatory Commission to use this report in the promulgation of future regulations concerning reactor operator licensing.

Sincerely,

Stan Fleming  
NETA Chairman
