This refers to the routine inspection conducted by E. H. Webster of this office on February 1 - March 5, 1981, of activities authorized by NRC Operating License Nos. Areas examined during the inspection and our findings are discussed in the enclosed inspection report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspectors.

During the inspection, it was found that certain activities under your license appear to violate NRC requirements. These items and references to pertinent requirements are listed in the Notice of Violation enclosed herewith as Appendix A. Elements to be included in your response are delineated in Appendix A.

We have examined actions you have taken with regard to previously reported unresolved items. The status of these items is discussed in the enclosed report.
