MEMORANDUM FOR: L. B. Higginbotham, Chief, Radiological Safety Branch
Division of Safeguards and Radiological Safety Inspection, I&E

FROM: A. F. Gibson, Acting Director
Division of Engineering and Technical Inspection, RII

SUBJECT: WASTE PACKAGING INSPECTION, TI 2840/1 (Rev. 2)

This refers to an unannounced routine safety inspection conducted by T. C. MacArthur of this office April 20-24, 1981. Shipments of radioactive waste shipped from the facilities listed in Attachment A were inspected upon arrival at the Chem-Nuclear Systems, Inc., Barnwell, South Carolina disposal site.

Areas examined during the inspection and our findings are contained in the enclosed inspection report and data sheets. Within these areas, the inspection consisted of a review of the shipping papers, placarding and labeling requirements, radiation measurements, selective contamination surveys, and observations by the inspector.

Within the scope of this inspection, no violations or deviations were disclosed.

Copies of the enclosed inspection report have been provided to the State of South Carolina and the United States Department of Transportation.

Should you have any questions, please contact me.
