May 27, 1981

Herbert N. Berkow, Chief
Management Analysis Branch
Planning and Program Analysis Staff
Office of Nuclear Reactor Regulation
Washington, D.C. 20555

Dear Mr. Berkow:

We recently sent a letter to President Reagan voicing concern over delay in licensing of Diablo Canyon Nuclear Power Plant.

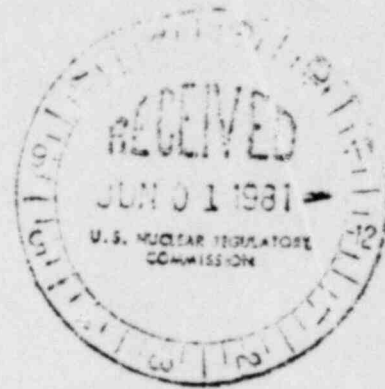

You responded with a form letter citing concerns by Governor Brown. Brown is campaigning for U.S. Senator and I submit that his campaign rhetoric should not be allowed to hold up a project so vital to the State of California and the United States.

Efficient use of domestic energy sources is vital to our economic future.

Very truly yours,

Lowell O. Weeks
General Manager-Chief Engineer
